Chair

BOS Built Environment Working Group and Associate

Arup

# BUILDOFFSITE Manifesto

**Influence, Lobby, Inform, Challenge Perceptions,  
Provide Insight and Knowledge and Demonstrate  
Evidence**

[@BUILDOFFSITE](#)

[#CollaboratingForImpact](#)

# Manifesto activities

## **Influence**

1. Engaged with government departments and Arms Length Bodies (ALBs)
2. Provided submission to parliamentary consultation on MMC
3. Promoted MMC at exhibitions, conferences, roundtables, webinars, and site visits

## **Lobby**

1. Increased adoption, helped develop standards and influenced accreditation (through BOPAS)

## **Inform**

1. BUILDOFFSITE Client Group has led the MMC research agenda
2. Review of working groups has culminated in new Built Environment Working Group
3. Meet the Buyer/Meet the Supplier events

# Manifesto activities

## Challenge Perceptions and Barriers

1. Addressed barriers and provided good practice at exhibitions, conferences, roundtables, webinars, BOPAS forums and site visits
2. Engaged with members, government departments and Arms Length Bodies (ALBs)
3. Provided guidance addressing these challenges:
  1. Construction Playbook response
  2. Increasing sustainable resilience in pre-cast concrete
  3. Design and concept of offsite construction
4. Developing new guidance in performance specifications and IP.

# Manifesto activities

## Provide Insight and Knowledge and Demonstrate Evidence

1. Growing programme of exhibitions, conferences, roundtables, webinars, and site visits
2. Provided evidence on:
  1. Overbuild
  2. Water design specifications
  3. Increasing sustainable resilience in pre-cast concrete
  4. Design for offsite construction
  5. Risk management in offsite construction
  6. Application of low carbon materials
  7. Carbon calculating and tracking
  8. Circular economy principles applied to (re)use of materials
  9. Waste management
