- Industry campaign to raise understanding
- Immediate access to frameworks and long-term contracts

Priority asks

Embedding sustainability and driving net zero carbon

- Incentives for carbon reduction using offsite methods
- More funding for low carbon innovations

Priority asks

Delivering digital transformation

- Tax credits or grants for digital integration within SMEs
- Industry wide adoption of digital kit of parts
- Innovation funding for automated design and AI based systems

Priority asks

Incentivising assurance and setting standards

- Incentives for seeking industry accreditation, e.g. BOPAS
- Support further setting of robust standards
- The continued development of open platform standards
- Further roll out of standardisation across sectors

Priority asks

Value based procurement and planning

- A holistic value based approach
- Revisions of building regulations
- Development of planning tools

Priority asks

Delivering workforce initiative on skills

- Government backed workforce development initiative focusing on offsite specific training programmes
- Professional qualifications and CPD programmes
- Building site transformed into production assembly plant
- Appointment and training of MMC advisers
